Converse County Hospital Foundation
P. O. Box 393
Douglas, Wyoming 82633

Thank you very much for your generous contribution to Bobbi's House, a Hospital Hospitality Home, of \$3,500. To date, the occupancy of Bobbi's House has surpassed our wildest dreams. It is gratifying to know its' existence has already made a marked difference in the lives of so many facing the uncertainty and expense of medical needs. You have generously helped make this dream a reality by contributing to this mission.

Now an incorporated Wyoming non-profit entity, Bobbi's House opened the summer of 2007 in Douglas, Wyoming as a ministry of the Christ Episcopal Church in honor of Bobbi Werner. Bobbi died of cancer in 2002 but her selfless acts of giving and kindness remain fresh in the hearts of the countless people whose lives she touched. It is that spirit of giving the House embodies in its' mission to provide hospitality to patients requiring medical care and their families. The goal is to provide a haven in a comfortable, home-like setting where guests can form a "family" with others facing similar situations.

To that end we provide a comfortable common area, dining room, kitchen, and children's play room with television, computer, telephone, and laundry facilities. We have four bedrooms available, including one handicapped accessible. The House is fully funded by donations.

We thank you again. In accordance with IRA regulations, this is a confirmation that neither services nor material goods were given to you or your family by Bobbi's House in exchange for this donation. Please retain this letter for tax purposes. And please keep Bobbi's House in mind in your future giving plans. It is a living entity and the line of those who knock on the door looking for a comfortable, quiet place to rest is long.

Sincerely,
The Board of Directors and Staff of Bobbi's House
